av.=Mean

dev.=Std. Dev.

ab.=Abstention

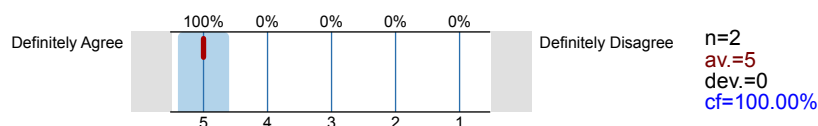

cf=Cumulative Frequency

1. was my teacher

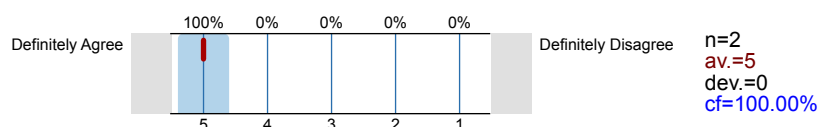

1.1)

1.2) The teacher communicated ideas and concepts effectively.

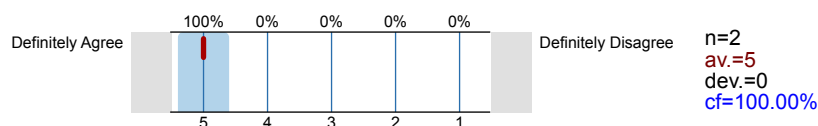

1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

- Lorenzo is a brilliant teacher and ensures that the student grasps concepts effectively. He has been very kind in going beyond what is expected to ensure that I understood the material.
- Love the way he delivers the answers, very detailed and well explained

1.6) Overall, I am satisfied with the teaching by this teacher on the course.

1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

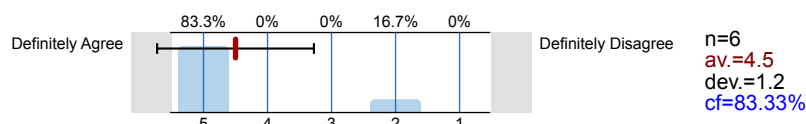

- Good connection to students and efficient ways of involving students in solving questions.
- Lorenzo is really nice and supportive, always explain things clear and concise. It was a pleasure to have him as our teacher!
- The full hour of seminar sessions was used productively.

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- Many of the problem questions were covered very quickly and concepts which were not fully understood could not be better explained because most students did not have the advanced mathematical vocabulary to express concerns. I think there were many occasions when the teacher himself did not understand what he was doing. During one week, a question required the manipulation of a set of inequalities which the teacher was unable to do right until a student pointed out that dividing or multiplying one side of an inequality requires the inversion of the existing 'greater than' or 'lesser than' symbol. This knowledge would be known to someone who has studied A-Level Maths and is why I believe the module needs to make the requirement of quantitative skills a compulsory pre-requisite. Towards the end of the year, the maths became so complex for some questions that only a few students were able to understand the course curriculum by the end of each seminar.

- Nothing
